PROFESSIONAL SUMMARY

Full Stack Developer with experience building responsive, high-performance user interfaces and scalable backend logic. Skilled in the MERN stack (MongoDB, Express.js, React.js, Node.js), TypeScript, Redux Toolkit, and RESTful API integrations. Passionate about crafting seamless end-to-end user experiences, clean architecture, responsive layouts, and secure authentication flows.

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer

Jan 2025 – Present

Self-Employed

Bangalore, India

- Designed, built, and deployed production-ready web applications using React.js, Next.js, Node.js, Express.js, and MongoDB.
- Developed complete frontend and backend features, supporting service catalogs, contact workflows, role authentication, and data listings.
- Collaborated directly with clients to analyze requirements, define database schemas, write custom APIs, and handle live deployment pipelines.

Senior Technician – Technical Support

July 2024 – October 2024

Dell Technologies

Gurgaon, India

- Provided hardware and software troubleshooting for enterprise clients and maintained technical case documentation – experience that strengthened structured problem-solving and cross-team collaboration.

PROJECTS

Chocoluxe – E-commerce Platform

June 2025

Node.js, Express.js, MongoDB, EJS, Bootstrap

[[GitHub](#)]

- Built a full-stack e-commerce application featuring dynamic catalog pages, cart management, and secure checkouts.
- Developed dynamic, server-rendered views using EJS, styling with Bootstrap, and database operations using MongoDB/Mongoose.
- Implemented user validation, structured error routing, and mobile-friendly responsive checkout workflows.

OLX Clone

August 2025

React.js, Firebase Auth, Firestore

[[GitHub](#)]

- Developed a full-stack classifieds application using React.js and Firebase Backend-as-a-Service.
- Integrated real-time database listener actions, secure authentication, and listing search features.
- Designed a mobile-first responsive frontend layout, ensuring consistent styling across all user viewport sizes.

Netflix Clone

September 2025

React.js, TMDb API, Axios

[[GitHub](#)]

- Created a data-driven landing page clone using React.js, utilizing custom components and React Hooks.
- Integrated TMDb API using Axios to fetch and render categorized movies and media banners asynchronously.

CLIENT PROJECTS

- **Sarco Family Dentistry:** Built the frontend for a dental clinic website using Next.js, with service pages, appointment booking UI, and doctor profiles. [[Live](#)]
- **Blossom Beauty Parlour:** Developed a responsive business website using Next.js with service showcases, inquiry forms, optimized page structure, and mobile-first UI. [[Live](#)]
- **Visit MunroeIsland:** Contributed to UI/UX design, page planning, and frontend development for a Kerala backwater-tourism booking platform (Next.js), as part of a small team. [[Live](#)]

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Redux Toolkit, Hooks, Context API, React Router, HTML5, CSS3, JavaScript, TypeScript
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Cookie Parsing, Session Management
- **Databases:** MongoDB, Mongoose, Firebase Firestore
- **Styling:** Tailwind CSS, Bootstrap, Responsive Design, Flexbox, CSS Grid
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Figma, Vercel, Render
- **Concepts:** Clean Architecture, MVC Pattern, Single Page Applications (SPA), State Management, API Testing

EDUCATION

Delhi University

B.Sc. (Hons.) Computer Science

2021 – 2024

Delhi, India

CERTIFICATIONS & TRAINING

MERN Stack Bootcamp (Brototype)

Full-Stack Track

Jan 2025 – Jan 2026

Kochi, India

- Intensive training on full-stack MERN development, repository practices, agile project delivery, and server deployment.
- Designed and implemented full-stack personal and client-facing web applications from requirements gathering to live hosting.
